STAVEBANK ROAD AND LAKESHORE ROAD EAST INTERSECTION IMPROVEMENTS

CLASS ENVIRONMENTAL ASSESSMENT STUDY NOTICE OF STUDY COMPLETION

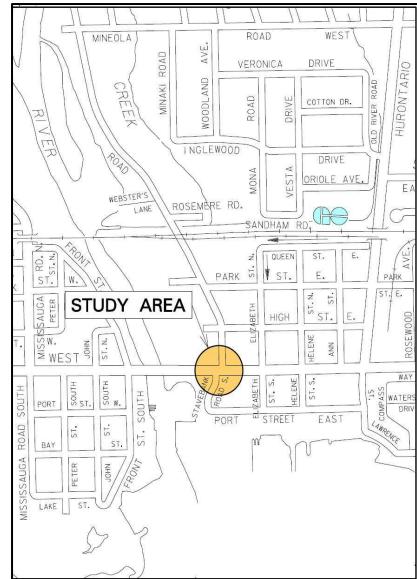

The City of Mississauga has completed a Class Environmental Assessment (EA) study to investigate improvements to the Stavebank Road and Lakeshore Road East intersection. The study area is restricted to the immediate vicinity of Stavebank Road and Lakeshore Road East intersection, which is presented in the adjacent key plan.

The study was conducted in accordance with the planning and design process for Schedule "B" projects as outlined in the Municipal Engineers Association "*Municipal Class Environmental Assessment (October 2000, as amended in 2007)*", which is approved under the *Ontario Environmental Assessment Act*.

Following the Public Information Centre on June 23rd, 2009 the preliminary recommended alternative was reviewed in light of comments received and confirmed. The preferred alternative includes:

- Re-alignment of Stavebank Road South to better align with the north approach with minimal impact to Lakeshore Road East.

The Project File Report, which contains a summary of pertinent information compiled during the study is available for a public review period at the following locations:
